

940BL Series

Manually Operated Syringe Fillers

The 940BL syringe filler transfers thick fluids from standard prefilled 1/10 gallon caulking/sealant cartridges to Ultra syringes for easier handling in assembly operations.

Features

- Fast and accurate filling.
- Accommodates 3cc to 55cc syringes.
- Indicators show maximum fill.
- Simple setup and cleanup.
- Ideal for short runs.
- Toggle switch for easy operation.

Use the convenient storage rack to hold your filled syringes.
#905BR holds (72) 3cc to 5cc syringes.
#910BR holds (24) 10cc, 30cc and 55cc syringes.
